3APFA

Third Asia-Pacific Forum on Andrology

The Tenth Anniversary Celebration of Asian Journal of Andrology

Nanjing, 10-13 October, 2009-China

The Third Asia-Pacific Forum on Andrology (3APFA), in conjunction with the Tenth Anniversary Celebration of Asian Journal of Andrology, will be held in Nanjing, October 10-13, 2009. The Forum is jointly organized by the Asian Society of Andrology & Asian Journal of Andrology, Shanghai Institute of Materia Medica, CAS, Shanghai Jiao Tong University and Nanjing Medical University and sponsored by several institutions and international organizations/societies. This meeting will focus the interests of clinicians and scientists in this large and populous region on the current progress and remaining challenges in the growing field of Andrology for the 21st Century. The theme of this Forum is "Environment, Life Style and Genetic/Epigenetic Factors and Men's Health". Comprehensive information on the forum is provided on our website www.asiaandro.com/3apfa.

The first and second "Asian and Pacific Forum on Andrology" were successfully held in Shanghai in 2002 and 2006 in China. The Third Asia-Pacific Forum on Andrology will be another grand high-level meeting on international Andrology in Nanjing, the metropolitan city with profound history and culture, which is 2 hour's train from Shanghai. A majority of world renowned researchers will take part in the congress, including WHO officials, former and current presidents of the International Society of Andrology, presidents of the Societies of Andrology (or Urology) in Asia-Pacific Regions and scientists who have made great contributions to the hot research fields of andrology. There is estimated to be 1000 participants coming from more than 60 countries and regions. Prevention, diagnosis and treatment of men's diseases like male infertility, male sexual dysfunction, prostate diseases and male aging problems will be discussed thoroughly; the contributing factors would be explored from laboratorial and clinical views. Free communication on the global trend of important fields of andrology will be conducted and clinical techniques will be demonstrated on the congress.

At the same time, exhibitions of medical instruments, drug products and health care products of andrology, urology and reproductive medicine will be held with the congress. The exhibitions will be a great exchange platform for enterprises, experts and mass.

We sincerely welcome enterprises and organizations to provide academic sponsorships for the congress.

Organizing Committee of the 3APFA

List of possible collaborations

1. The enterprise's technological communicative satellite workshops (Sponsored by Enterprise or Organization)

- Time: noon or night, from 10 Oct to 13 Oct (no more than 1 hour)
- Sum: 50,000 RMB each session

Introduce your products to the targeted attending representatives by live performance or demonstration. A great opportunity to open or expand your market in China! You can invite speakers by yourself or select speakers those we have invited.

Based on the theme of the congress, we preliminarily plan to conduct workshops of seven topics. In this way, your product would be demonstrated to the ideal ones with great speakers!

1. Male Infertility
2. Male Sexual Dysfunction
3. Prostate Diseases
4. ART and Lab
5. WHO Semen Analysis Manual (5th Edition)
6. Surgery for Andrology (Video)
7. Others

2. Sponsorship for the bags

- Sum: 50,000 RMB
- Sponsors' benefit:

- ◊ Print sponsor's name and logo on the bag chosen by the organizing committee to be handed to all congress participants
- ◊ 2 free conference registrations
- ◊ Corporation's information on the electronic instructing screen at the entrance
- ◊ Corporate publicity materials issued simultaneously with Forum materials
- ◊ Have color page advertisements in the proceeding of the conference
- ◊ Enterprise's websites be linked to the home page of the BBS website

3. Sponsorship for the photograph area

- Sponsorship sum: 50,000 RMB
- Sponsors' benefit:

- ◊ sponsor's name and logo on the background board of the photograph area
- ◊ Have 6m2 exhibition site beside the photograph area
- ◊ 1 free conference registration
- ◊ Show advertisements on the electronic instructing screen at the entrance
- ◊ Enterprise's websites to be linked to the home page of the forum's website
- ◊ Have color page advertisements in the proceeding of the congress
