
10th Biennial Meeting of Asia Pacific Society for Sexual & Impotence Research (APSSIR)

old problems
sexual dysfunction
new solutions

**Cairns, Queensland, Australia
4-8 October, 2005**

The 10th Biennial Meeting of APSSIR has been scheduled for 4-8 October 2005, to be held in the popular world-class resort city of Cairns in Queensland, Australia.

The Meeting will be hosted by the Keogh Institute for Medical Research, Perth, Western Australia, with Ms Carolyn Earle, Sexologist and Administration Manager at the Institute as Chair of the Organizing Committee and Dr. Kim Chew, Men's Health Physician, putting together an interesting and innovative Scientific Programme.

The Meeting, with its theme 'Sexual Dysfunction: Old Problems - New Solutions', will address a comprehensive range of topics related to sexual problems affecting both genders. Many leading world and regional opinion leaders and health professionals in sexual medicine and related medical and para-medical disciplines have indicated a strong interest in the Meeting. A highly-regarded International/Asia-Pacific Faculty has been confirmed.

A Call for Submission of Abstracts for presentation at the Meeting in various formats has just be made.

Cairns is located in the precincts of World Heritage-listed rainforests and the renown Great Barrier Reef. The Cairns Convention Centre, the Meeting venue, has just won the 2004 Apex Award for World's Best Congress Centre, presented by the International Association of Congress Centres (AIPC). Delegates to the Meeting will therefore also have ample opportunities for a huge variety of social, recreational and cultural activities.

The Meeting will in addition provide an excellent opportunity for the pharmaceutical industry to highlight and update its products and services for the modern management of sexual dysfunction.
