Judd W Moul
Director, Center for Prostate Disease
Research, Maryland, USA

NOW INDEXED
IN MEDLINE!

Prostate Cancer and Prostatic Diseases covers all aspects of prostatic diseases, in particular prostate cancer, the subject of intensive basic and clinical research worldwide. The journal also reports on exciting new developments being made in diagnosis, surgery, radiotherapy, drug discovery and medical management.

Topics covered include diagnosis, surgery, benign prostatic hyperplasia screening, radiation therapy, molecular biology and genetics, gene therapy, biochemical markers, new technologies, prognostic indicators, chemotherapeutics, treatment options and immunological approaches.

Visit www.nature.com/pcan to view the journal's extensive online features, including:

- **Coming Soon:** Advance Online Publication (AOP) – view the most recent information available. Papers available online before they appear in print
- **Coming Soon:** Online Submission – submit papers quickly and easily with eJournalPress online submission
- Free online content – view the full-text of selected articles
- Full-text HTML references with links to the corresponding MEDLINE abstracts
- Searches by author name, title or keyword across *Nature* and all other NPG titles
- Fully searchable online archive of all issues from 1997 onwards
