

SOLICITATION FOR PAPERS

Asian Journal of Andrology

Dear authors,

Asian Journal of Andrology (AJA) cordially invites original papers and reviews on all areas of andrology from every part of the world and is distributed worldwide.

With the continuous support of the andrologists and urologists from more than 50 countries, *AJA* has gained considerable achievements. According to the **2004 Journal Citation Reports (JCR)**, the SCI impact factor of *AJA* is 1.096 and ranks third among five international andrology journals, which shows a steady increase over the 2002 impact factor (0.827) and 2003 (1.064).

If you would like to submit your related papers (including review) to *AJA*, as a major peer-reviewed English journal on andrology in China or even in Asia, *AJA* can necessarily help you to let most of Chinese/Asian scientists concerned to your study. With a high incidence of various male diseases and strong public desires for the knowledge of andrology, China has paid more attentions and given more supports to the development of andrological/urological/reproductive research and technology concerned. Accordingly, more and more institutions and researchers have devoted themselves to scientific research of andrology/urology/reproduction. So we believe China no doubt is a good site for interchanges of research ideas and results in andrology/urology/reproduction.

Both original articles and reviews/mini-reviews (clinical, basic and epidemiological) are warmly welcome. We should be most grateful if you would kindly agree. Please submit your papers online via <http://mc.manuscriptcentral.com/aja>. The same rigorous peer review as that for submitting regular articles will be used. Should you have any question, please feel free to contact us by email (aja@sibs.ac.cn) or by fax (+86-21-5492-2825). We promise **rapid peer review** and **rapid publication**. Manuscripts prepared according to our "Information for Authors" (<http://www.asiaandro.com/journal/authors/information%20for%20authors.htm>) can expedite the publication.

Best regards!

Yours sincerely,

Shao-Zhen Qian

Editor-in-Chief, *Asian Journal of Andrology*
