

The 5th China International Congress of Sexology

第五届中国国际性学学术交流会

August 10-16, 2007, Xining Qinghai and Lhasa Tibet, China

Dear colleagues,

We are pleased and honored to inform you that 5th China International Conference on Sexology, will be held in the Xining Qinghai and Lhasa Tibet, China, on August 10-16, 2007.

Tibet is the last Pure Land of Paradise of mankind, and full of mysteries and attractions. The geography environment, weather and material condition of the place are a challenge to human's bodies and will. The latent power of culture, belief of religion and worship to reproduction of the Tibetan people are a culture shock to the visiting people. The fact that Tibetan people worship the nature and reproduction has formed a unique and special culture in snowy Tibet. No matter in the over 1300-year-old Potala Palace, in the fields, by the lake, in the temples or by the roadside, there are varieties of sexual relics. So Tibet is a perfect place for technical and scientific research and tourism. You will experience the unique culture and be impressed by it when you take a train going along Qinghai-Tibet Railway, the highest railway in the world. This railway is on the "World Roof" and goes through. "Life-Forbidden" place in Mount Kunlun, Keke Xili and the source of the Yangtse River, the Yellow River and the Lancang River. It will be a memorable experience to investigate the various living things and appreciate the world upstage beautiful scenic spots along the railway. By the time that the conference is held next year, this railway will have been open to passengers. Therefore holding the international conference in Lhasa will be sure to create a wider view of the ancient human sexual culture, and promote the exchange of experience in the fields of sex and reproduction health.

We are looking forward to meeting you in Lhasa at that time.
