

On the occasion of the 10th anniversary of the Asian J. of Andrology I want to congratulate the Editorial Board and all Staff Members for an excellent work. The journal has been a success in a competitive environment. This speaks in favour of a promising future.

I want to emphasize two of many debitive markers for AJA. The Editor do not apply age discrimination and invite opinion not in agreement with current paradigm. These marks are important in a time of increasing uniformity in thinking - even in matters related to science.

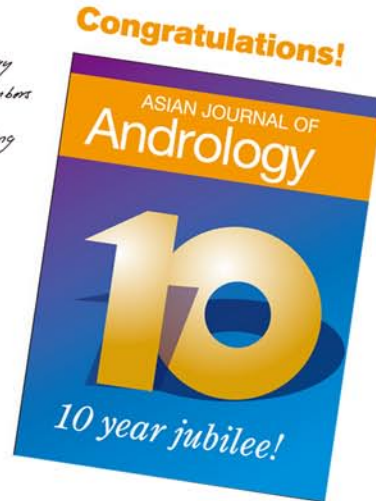

It is an honour to serve on your Advisory Board.

Sincerely yours

Rune Eliasson, MD, PhD

The International Journal of Andrology

**Society of
Andrology: India**

Our heartiest congratulations on successful completion of 10 years of Asian Journal of Andrology. It is a matter of great pride that due to strenuous and dedicated efforts of the Asian Society of Andrology, Asian Journal of Andrology is recognised as front ranking journal in Andrology. Publication of Asian Journal of Andrology has added new dimensions on the growth of Andrology in India. Faculty, researchers and students in India are greatly benefited.

11 March 2009

It is my great pleasure to extend my congratulations to the Asian Journal of Audiology on the occasion of the 10th Anniversary of its foundation.

The journal has rapidly established itself as an important place to publish high quality research in the field of Audiology. The quality of the publication is a credit to the staff of the journal who have a major commitment to furthering the scientific basis of Audiology. As such it plays an important role in the education of doctors, allied health professionals and students of Medicine.

The staff work hard to ensure a quick turn around time for referees reports, so critical in maintaining the high quality of papers.

I am sure that the Third Asia-Pacific Forum on Audiology will provide an important opportunity to celebrate the 10th Anniversary in Nanjing.

My good wishes for the next 10 years

David de Klerk
